Mr. Mike Stoker
Regional Administrator
U.S. Environmental Protection Agency
Region 9
75 Hawthorne Street
San Francisco, California 94105

Dear Mr. Stoker:

On March 21, 2016, the California Air Resources Board (CARB) submitted to the U.S. Environmental Protection Agency (U.S. EPA) the March 8, 2016 version of the El Dorado County Air Quality Management District (District) Rule 523-1, *Federal Non-Attainment New Source Review* for inclusion into the California State Implementation Plan (SIP). The U.S. EPA has not yet taken action on this submittal.

Since that submittal, U.S. EPA has issued revised model rule language for this New Source Review rule. Therefore, on July 2, 2019 the District requested that CARB withdraw Rule 523-1 from consideration into the California SIP. As the agency designated under California law to make revisions to the California SIP, CARB now formally requests that U.S. EPA withdraw District Rule 523-1 as adopted on March 8, 2016 from consideration and instead consider the enclosed revised version of Rule 523-1 that the District amended on June 25, 2019.

Enclosed is the complete package submitted by the District to CARB, and CARB Executive Order S-19-012 adopting the District rule as a revision to the SIP. To meet U.S. EPA's criteria for determining that rule submittals are administratively and technically complete, we have also enclosed an evaluation of the effects of the rule on emissions, an evaluation of the rule's consistency with 40 CFR 51, and other supporting documentation provided to us by the District.
